

PINNACLE OZONE SOLUTIONS, LLC • Cocoa, Florida

REMOTE MONITORING SERVICES

Proactive Insights • Maximum Uptime • Expert Guidance

Our **Weekly Remote Monitoring Service** gives you complete visibility into your ozone system's health and performance. Secure remote connections let our certified technicians track critical parameters in real time, analyze trends, and deliver clear, actionable weekly reports — helping prevent downtime, optimize efficiency, and maintain compliance with minimal site visits.

KEY BENEFITS

- | | |
|--|---|
| ✓ Prevent Downtime — Early detection of issues in temps, flow & ozone output before costly failures occur. | ✓ Lower Operating Costs — Fewer routine visits while keeping expert oversight; service only when needed. |
| ✓ Boost Efficiency — Track ozone efficiency, QuadBlock performance & temps to fine-tune and cut energy costs. | ✓ Extend Equipment Life — Identify stress points (cell/heat sink temps) and schedule smart maintenance. |
| ✓ Enhance Safety — Continuous ambient ozone monitoring (<0.5 ppm) with full compliance documentation. | ✓ Peace of Mind — 24/7 specialist monitoring with clear weekly expert reports delivered to your inbox. |

SAMPLE WEEKLY REMOTE MONITORING REPORT

Example of the professional weekly report format you will receive. All parameters shown are within limits (green OK status).

Parameter	Acceptable Limits	Reading	Status	Notes
Inlet Water Temp	<65°F	52.9 °F	OK	
Outlet Water Temp	N/A	57.4 °F	OK	
Differential Temp	<15°F	4.5 °F	OK	
Chilled Water Flow Rate	>2 gpm/Blk	16.7 gpm	OK	
Enclosure Temp	<100°F	80.3 °F	OK	
Greatest QuadBlock Cell Temp	<105°F	78 °F	OK	
Greatest QuadBlock Heat Sink Temp	<150°F	97 °F	OK	
Ambient Ozone Level	<0.5 ppm	-0.32 ppm	OK	Safe operating level

Example data for illustration. Your customized report includes system-specific parameters, trends & technician notes.

HOW REMOTE MONITORING WORKS

- 1. Secure Connection** — Encrypted remote access to your system's HMI and sensors.
- 2. Continuous Monitoring** — Real-time logging of temps, flow, ozone output, efficiency and safety levels.
- 3. Weekly Expert Review** — Technicians analyze trends and compile a concise professional PDF report.
- 4. Responsive Support** — Weekly delivery + immediate alerts and priority response for any out-of-spec conditions.

READY TO OPTIMIZE YOUR OZONE SYSTEM?

Remote Monitoring is available as a standalone service or as a key feature of our Pinnacle Paramount Service Plan.

Contact Pinnacle Ozone Solutions today to discuss implementation for your facility.
